Word Search Worksheets

Create your own custom word search worksheets! A variety of options are available including font size, font style, lowercase or uppercase letters, grid shape, word placement, and more.

Experiment with the settings below to find the best results for printing. You may also need to adjust your browser's page setup (change margins, header/footer, or switch to landscape/portrait mode), then go to "Print Preview" before printing. These options are under your browser's File menu. Landscape mode works best for many puzzles. Also, set your margins to 0.5" or less.

Before you create your puzzle, you might also want to highlight your word list and press Ctrl+C to keep a copy of it on your computer's clipboard. That way, if you need to come back and change settings, you can paste the words into the blank by pressing Ctrl+V. Otherwise you'll have to re-type them. (These shortcut commands work on Windows systems.)

PLEASE NOTE: You should always proofread word searches like this before giving to students in case inappropriate words and up in the randomized letters.
